BROOM-FINISHED PATIOS

DURABLE

FUNCTIONAL

COST-EFFECTIVE

A broom-finished patio is the foundation of a great outdoor space. It's clean, functional, and designed to look good with any home.

We focus on precision, drainage, and detail—so you get a patio that performs as good as it looks.

CONSISTENT FINISH

Uniform broom lines create a clean, slip-resistant surface with a sharp, professional appearance.

PROPER DRAINAGE

We build with the right slope so water moves away from your home and off your patio.

ATTENTION TO DETAIL

From control joints to edges and transitions, every detail is handled with care.

CUSTOMIZABLE

We can do any shape, any style that you want to bring your vision to life.

WHY HOMEOWNERS CHOOSE THIS FINISH

- ✓ Timeless, clean look
- ✓ Lower maintenance
- ✓ Great in all seasons
- ✓ Works with any home style

**SIMPLE. FUNCTIONAL.
ALWAYS A SOLID CHOICE.**

EXPANDED OUTDOOR LIVING

Perfect for entertaining and family gatherings. Spacious, functional, and built to be used.

CURVED DESIGN

Soft curves and clean lines create a patio that feels custom and comfortable.

WALKWAYS THAT FLOW

Connect your spaces with clean, broom-finished walkways that tie everything together.

MINI SKID STEER

THE 12-STEP PROCESS

HOW WE COMPLETE YOUR STAMPED CONCRETE PROJECT

1

WE PROTECT YOUR PROPERTY

We place plywood on the ground to protect your grass and access areas.

2

WE EXCAVATE

We remove all dirt, old concrete, or existing decks to prepare for a solid foundation.

3

WE BUILD A STRONG BASE

We install 4" of 53 stone and compact it with a plate compactor for maximum stability.

4

WE MIX WITH PURPOSE

Concrete is mixed at the street with integral color—bags of color are added to the truck and mixed for 15 minutes.

5

WE TRANSPORT WITH CARE

We use a Georgia buggy to haul the concrete from the street to your project.

6

WE PLACE AND FLATTEN

We pour, spread, and level the concrete to create a smooth, even surface.

7

WE STAMP WHILE IT'S WET

We stamp while the concrete is still wet to achieve deep texture and a non-slip finish.

8

WE PULL THE FORMS

We remove the forms and clean up the job site.

9

WE SAW CUT THE JOINTS

We return to saw cut all necessary joints to create proper relief and prevent cracking.

10

WE ANTIQUE FOR LASTING COLOR

We apply a liquid antiquing to enhance texture and create rich, permanent color.

11

YOU APPROVE THE LOOK

We walk the project with you to ensure you love the final antiquing.

12

WE SEAL FOR PROTECTION

We apply a high-quality sealer to protect your investment and lock in the beauty.

OPTIONAL UPGRADES. BUILT FOR MORE.

Every project we build is designed and reinforced the right way to deliver lasting strength and durability. These optional upgrades add an extra level of performance and protection—giving you even greater peace of mind for years to come.

STRONGER

Built to handle everyday wear and heavy loads.

MORE DURABLE

Better resistance to weather, freeze-thaw, and chemicals.

LASTS LONGER

Enhanced strength and protection for the long haul.

ADDS VALUE

Smart upgrades that protect your investment for years to come.

E5TM

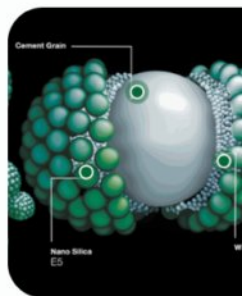

1

ADD E5

Stronger. Denser. Built to Last.

E5 admixture is a scientifically engineered additive that improves the performance and durability of concrete from the inside out.

- ✓ **Increases Early Strength** – Concrete gains strength faster for quicker use and long-term performance.
- ✓ **Creates a Denser Mix** – Reduces the water-cement ratio for a tighter, stronger, and less porous concrete.
- ✓ **Improves Durability** – Enhanced resistance to freeze-thaw cycles, chlorides, and harsh weather conditions.
- ✓ **Reduces Cracking & Dusting** – Helps minimize surface wear and extends the life of your concrete.

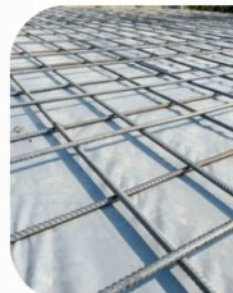

2

ADD REBAR

Added Strength. Superior Performance.

Reinforcement adds powerful structural support to your concrete, helping it handle heavy loads, resist movement, and perform at its best.

- ✓ **Increases Tensile Strength** – Helps concrete withstand bending, expansion, and heavy static loads.
- ✓ **Controls Cracking** – Helps hold cracks tight and prevents them from widening or spreading.
- ✓ **Improves Impact Resistance** – Adds strength for high-traffic areas and demanding applications.
- ✓ **Provides Long-Term Stability** – Ideal for driveways, patios, aprons,

GATORBAR[®]
THE FUTURE OF REBAR[®]

3

ADD INTRASEAL

Permanent Protection. Real Savings.

Impede[®] IntraSeal is an integral water repellent that chemically reacts within the concrete to block moisture and prevent it from the inside out.

- ✓ **Repels Water & Moisture** – Helps prevent absorption, efflorescence, and surface damage.
- ✓ **Resists Freeze-Thaw Damage** – Protects concrete from scaling, cracking, and deterioration over time.
- ✓ **Reduces Efflorescence & Stains** – Helps prevent white mineral deposits and keeps concrete looking cleaner, longer.
- ✓ **Built-In, Not Surface Applied** – Lasts for the life of the concrete and won't wash out or wear away.

**Impede[®]
IntraSeal**

**SMART INVESTMENT.
BIG TIME SAVINGS.**

THE ADVANTAGES OF LIQUID ANTIQUING FOR STAMPED CONCRETE

At Concrete Indy, we use liquid antiquing—
not powder release—because we believe it's the
best option for your stamped concrete. It gives us
complete control over the color, a cleaner process,
and unmatched, long-lasting results.

EXPERTS YOU CAN TRUST

We are one of Indiana's largest and
most trusted stamped concrete
specialists, and we use liquid
antiquing because it delivers
superior beauty, durability & value.

PRECISION & CONTROL

We control the process. Apply it once,
twice, or even three times to achieve
the exact color depth and tone you
want. With powder release, you get
one chance — take it or leave it.

CLEANER APPLICATION

No dusty powder in the air. Liquid
antiquing stays where it belongs —
on your concrete, not on your home,
your neighbor's home, your fence,
or your landscaping.

LONGER LASTING BEAUTY

Liquid antiquing penetrates deep
into the concrete, bonding with
the surface. It won't sit on top or
wear off when the sealer does.
To remove it, you'd need to grind it out.
It's like pouring oil on your driveway —
it burns in and becomes part of
the concrete.

POWDER RELEASE DISADVANTAGES	LIQUID ANTIQUING ADVANTAGES
✗ Only one chance, you can't add more or take any away.	✓ Multiple applications for total control
✗ Can be messy and hard to contain	✓ Cleaner, contained application
✗ Can get on homes, fences, cars, and landscaping on windy days	✓ Stays where it belongs
✗ Sits on top of the concrete	✓ Penetrates deep into the concrete
✗ Wears off when sealer wears off, causing color loss	✓ Lasts longer than any other secondary color

**MORE CONTROL. CLEANER PROCESS.
LONGER LASTING RESULTS.
THAT'S THE CONCRETE INDY DIFFERENCE.**

LIQUID ANTIQUING COLOR OPTIONS

Elegant, natural tones that enhance the beauty of your stamped concrete.

CHARCOAL

WALNUT

CUSTOM CONCRETE STEPS

CUSTOM CONCRETE STEPS & ELEVATIONS

From simple entry steps to fully integrated patio elevations, we design and build concrete step systems that combine durability, safety, and high-end appearance. Every project is custom—built to match your home, grade, and style.

BUILT TO PERFORM

Proper base prep, reinforcement, and grading ensure long-term durability and stability.

CUSTOM CONFIGURATIONS

Straight, curved, wide landings, multi-tiered—every step system is built to fit your space.

DECORATIVE OPTIONS

Stamped textures, smooth finishes, or exposed edges—designed to match your patio or home.

BUILT FOR INDIANA

Freeze-thaw resistant. Proper drainage. Designed for Midwest conditions.

THE CONCRETE INDY DIFFERENCE

When we do stamped concrete, we use **form liners**. Ask your other contractors if they do, because it makes the **steps look amazing**.

That's one of the big differences here at Concrete Indy – **we do it the right way.**

**CHEMICAL
RESISTANT**

FULL FLAKE FLOOR SYSTEMS.

Transform your garage into a clean, durable, high-performance space. Our full flake epoxy systems are designed to handle daily use, resist wear, and look incredible for years.

This is a true multi-layer system—not a quick one-day coating—built for long-term performance and a premium finish.

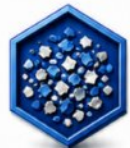

PROPERLY PREPPED

We mechanically grind every floor to open the concrete pores, ensuring maximum adhesion and long-term performance.

STRONGER SYSTEM

Epoxy base coat provides superior bond strength and durability compared to one-day coating systems.

FULL FLAKE COVERAGE

Broadcast flake for a seamless, textured finish that hides imperfections and adds grip.

NON-YELLOWING TOPCOAT

Polyaspartic topcoat locks everything in with UV stability and long-term protection.

BUILT FOR INDOORS

Designed specifically for garage environments—where strength matters more than flexibility.

EPOXY GARAGE FLOORS

Stronger durable, seamless surface that resists stains

POLYASPARTIC FLOORS

Superior UV resistance, excellent protection against scratches, hot-tire pickup

2-DAY SYSTEM ADVANTAGE

Not all coatings are the same.

OUR SYSTEM USES:

- ✓ Epoxy base coat (maximum strength + adhesion)
- ✓ Full flake broadcast
- ✓ Polyaspartic topcoat (UV stable + protective)

Unlike one-day systems, this process is **BUILT FOR DURABILITY** — not speed.

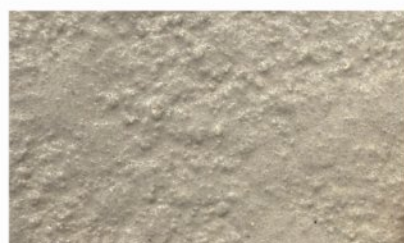

PLEASE VISIT THIS WEBSITE FOR MORE FLAKE OPTIONS:

SURECRETE RESIST

THE SMART ALTERNATIVE TO CONCRETE REPLACEMENT.

RESTORES. PROTECTS. TRANSFORMS.

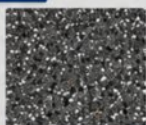

A premium epoxy sand overlay
that restores worn concrete
with a beautiful, slip-resistant
finish—without the cost or
long wait times of replacement.

POPULAR COLORS

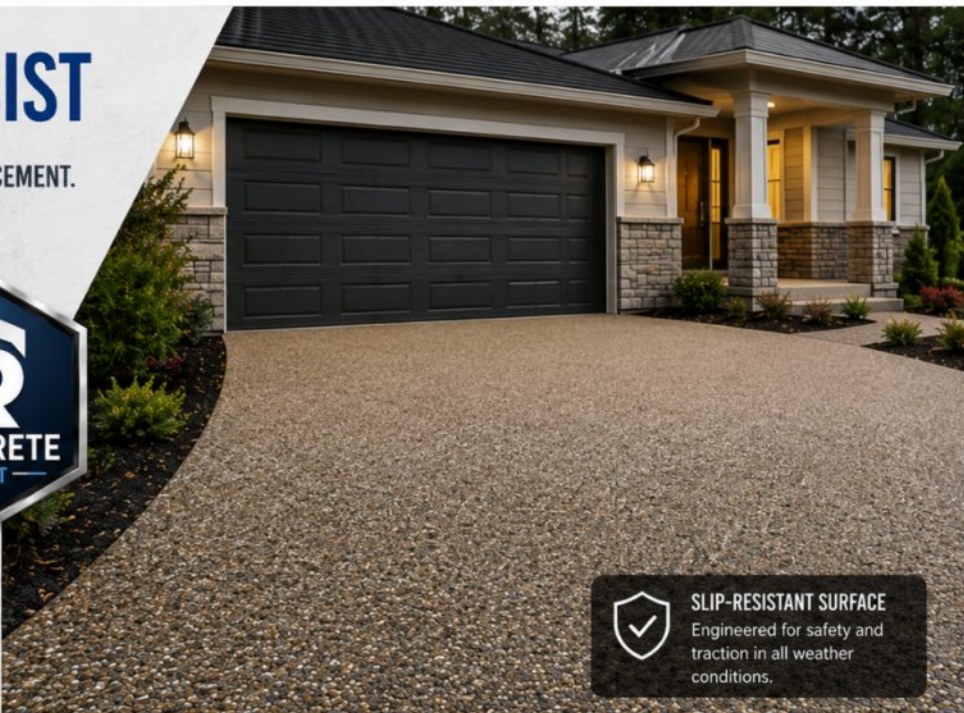

SANDSTONE

GRANITE

MOCHA

SLIP-RESISTANT SURFACE

Engineered for safety and
traction in all weather
conditions.

BUILT TO LAST
Designed to withstand
heavy traffic and
everyday wear.

**INDUSTRIAL-GRADE
EPOXY**
Professional-grade
materials for maximum
durability and strength.

BEAUTIFUL FINISH
Enhances the look of
any concrete surface
with a natural stone
appearance.

MADE IN USA

ENGINEERED TO HOLD. BUILT TO LAST

CUSTOM CONCRETE WALLS

From commercial and industrial walls to retaining solutions, we build cast-in-place concrete systems engineered for long-term structural performance and durability.

STRONGER THAN PAVER WALLS

No shifting. No settling.
Superior structural
integrity.

DONE FASTER

Poured in place.
Completed in
days—not weeks.

SAME PRICE AS PAVER WALLS

More strength.
Faster install.
Less maintenance.

LOW MAINTENANCE

No joint sand.
No movement.
Built to perform.

STAMPED WALLS

Get the look of
natural stone without
the cost of full
masonry using
stamped and colored
retaining walls.

GREAT IDEA FOR RETAINING WALLS — BUILD THEM OUT OF CONCRETE.

Stronger. More durable. Built to last.

SMOOTH FINISH WALLS

A durable and
budget-friendly
option that
provides long-
lasting structural
support with a
clean, modern
appearance.

HOW WE BUILD WALLS

Concrete walls can
exert thousands of
pounds of pressure
while being poured.
Heavy-duty bracing
helps ensure straight
walls, proper
alignment, and long-
term structural
integrity.

WHY CONCRETE WALLS ARE THE BETTER CHOICE

CONCRETE WALLS

STRONGER & MORE DURABLE
Built to last for decades

FASTER INSTALLATION
Saves time and reduces labor costs

NO SHIFTING OR SETTLING
Stays level and looks great for years

LOW MAINTENANCE
No re-stacking, re-leveling, or weeds

BUILT FOR HEAVY LOADS
Handles pressure and weight with ease

VS

PAVER WALLS

MORE PRONE TO FAILURE
Can crack, lean or collapse over time

LONGER INSTALL TIME
Many steps, more labor, more time

CAN SHIFT OR LEAN
Movement over time is common

REQUIRES UPKEEP
Needs releveling, resetting, add weed control

NOT IDEAL FOR HEAVY LOADS
Not designed for serious pressure or weight

KNOW WHAT KIND OF SEALER YOU'RE GETTING.

THREE TYPES. BIG DIFFERENCES.

Not all sealers are created equal. Ask the right questions.

GOOD

CURE & SEAL

WATER-BASED • SHORT-TERM PROTECTION

BASIC PROTECTION

Great for new concrete

LASTS

Up to 3 Months

VALUE CHOICE

Budget-friendly option

- ✓ Water-based curing compound and sealer
- ✓ Helps with the curing process

- ✓ Provides light protection for new concrete
- ✓ Helps reduce moisture loss and surface cracking

A SMART START FOR STRONGER CONCRETE

BETTER

INDUSTRY STANDARD PENETRATING SEALER

APPLIED AFTER 28 DAYS

PROFESSIONAL PROTECTION

Built for durability

LASTS

Up to 2 Years
Reapply every 3 years

GREAT VALUE

Stronger protection
for long-term use

- ✓ We return after 28 days
- ✓ Light power wash for a clean surface
- ✓ Roll on commercial grade sealer

- ✓ Enhances appearance and adds protection
- ✓ Resists stains, moisture, and wear
- ✓ Ideal for driveways, patios & more

IF YOU DON'T RESEAL YOUR CONCRETE,
IT REALLY WASN'T WORTH SEALING IT IN THE FIRST PLACE.

DRIVEWAY CLEANING & SEALING

WANT A FREE QUOTE?

**YOUR CONCRETE WORKS
HARD EVERY DAY—
WE MAKE SURE IT STAYS THAT WAY.**

Our professional cleaning and sealing process removes dirt and buildup, then **locks in protection** to defend against the elements, stains, and wear.

**THE RESULT?
STRONGER, CLEANER CONCRETE
THAT LOOKS GREAT AND LASTS
FOR YEARS TO COME.**

PROTECT YOUR CONCRETE

Keep your Driveway sealed to help prevent cracking and salt damage.

PROFESSIONAL CLEANING

We power wash and remove dirt, grime, mold, and contaminants to create a clean surface for maximum sealer adhesion.

INDUSTRY STANDARD PENETRATING SEALER

NOT JUST A SURFACE SEALER

We use a premium penetrating sealer that soaks deep into the concrete, enhancing the natural look while allowing it to breathe.

SUPERIOR PROTECTION

Penetrating sealers protect against:

- Freeze/thaw damage
- Surface wear
- Water penetration
- Staining from oil and debris

ENHANCED APPEARANCE

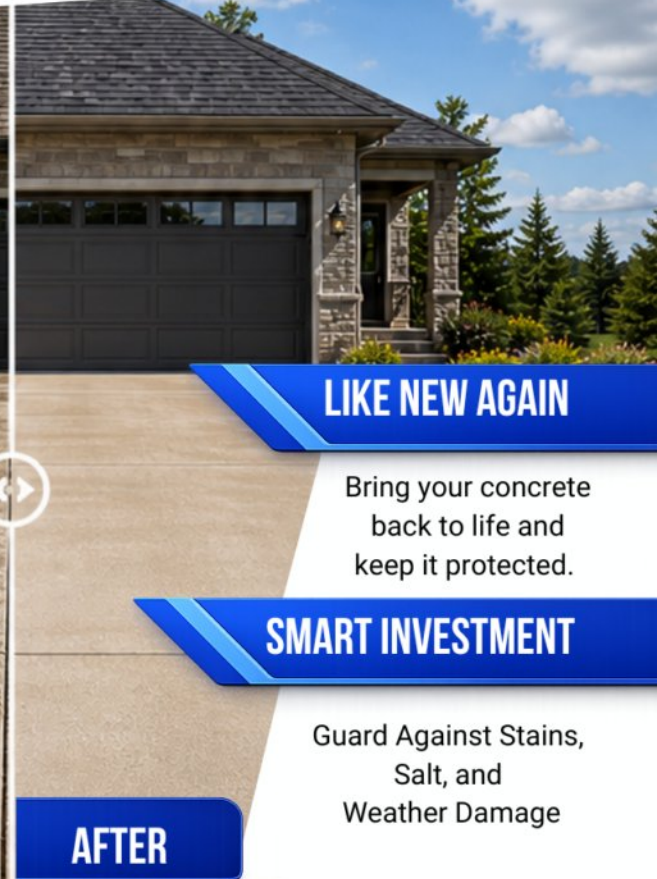

Penetrating sealer brings out the best in your concrete with a clean, natural, low-sheen finish that boosts curb appeal.

WE USE PENETRATING SEALER
It's the industry standard for lasting protection and natural beauty.

INTEGRATED DRAINAGE SOLUTIONS

SMART DRAINAGE. BUILT INTO YOUR CONCRETE. BUILT TO LAST.

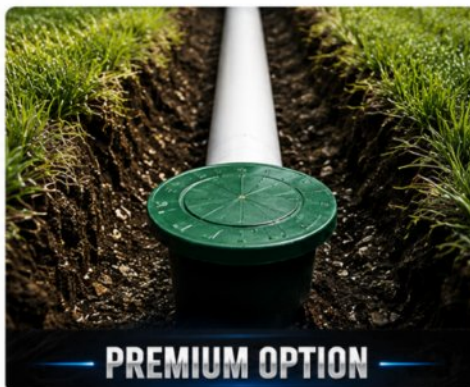

1 BURIED DOWNSPOUTS CORRUGATED PIPE

STANDARD OPTION

- ✓ Affordable & efficient
- ✓ Flexible routing
- ✓ Pop-up emitter for easy access
- ✓ Great for most residential applications

2 BURIED DOWNSPOUTS SMOOTH-WALL PVC

PREMIUM OPTION

- ✓ Stronger & more durable
- ✓ Smoother water flow
- ✓ Better for long runs and higher water volume
- ✓ Ideal for long-term protection

3 LINEAR / CHANNEL DRAINS SURFACE DRAINAGE

SURFACE SOLUTION

- ✓ Low-profile, clean look
- ✓ Helps prevent standing water
- ✓ Helps protect concrete and foundations
- ✓ Ideal for high-traffic areas

4 BURY ALL DOWNSPOUTS AROUND YOUR PROPERTY

Keep your entire property clean, safe, and protected by burying all downspouts underground and directing water to where it won't cause problems.

ELIMINATES UNSIGHTLY EXTENSIONS
No more black downspout extensions on your home or around the yard.

PROTECTS YOUR FOUNDATION
Directs water away from your home to help prevent erosion and foundation issues.

SAFER WALKWAYS & PATIOS
Keeps walkways, patios, and outdoor spaces drier and safer for your family.

PROTECTS LANDSCAPING
Prevents erosion and washout around flower beds and landscaping.

LONG-TERM INVESTMENT
Extends the life of your concrete, landscaping, and your home.

POP-UP EMITTER
Discharges water safely away from your home and landscaping.

WHY HOMEOWNERS CHOOSE INTEGRATED DRAINAGE

Keeps Water
Where It Belongs

Protects Your
Home & Concrete

Cleaner, More
Polished Appearance

Adds Value to
Your Property

BUILT INTO YOUR CONCRETE PROJECT

The best time to install drainage is during construction. We integrate smart solutions that last.

DON'T FORGET TO BACKFILL

YOUR CONCRETE

PROTECTS YOUR INVESTMENT PREVENTS EROSION IMPROVES DRAINAGE

CONCRETE + LANDSCAPING UPGRADES

We don't just pour concrete—we finish the space the right way.

From clean backfill to decorative stone and plant installs, we offer simple landscaping upgrades that make your new patio or driveway look complete.

OPTIONAL UPGRADES:

Backfill, stone, mulch, and plant installs are available as add-ons to complete your project.

OPTIONAL UPGRADES

The following landscaping options are optional upgrades and are not included with standard concrete installation unless added.

CLEAN BACKFILL

Fresh dirt grading around your concrete for a smooth transition into your yard.

GRASS SEED

Seeded for fast, even grass growth and a clean, finished look.

MULCH BEDS

Defined mulch borders that elevate appearance and reduce maintenance.

DECORATIVE STONE

Low-maintenance stone edges for drainage, durability, and a modern look.

PLANT INSTALLS

Optional landscape for added privacy, structure, and year-round green.

OPTIONAL PLANTING

WE CAN INSTALL:

- Any trees, shrubs, or arbovitae privacy lines

MULCH

A clean, attractive finish that blends your new concrete into landscape areas.

STONE

A durable, low-maintenance option that improves drainage and appearance.

DIRT

Natural finish that restores the area

POPULAR HANDRAIL CHOICE THAT WE OFFER ARE BLACK WESTBURY CHR EASY TO GRASP.

BEAUTIFUL DECKS. BUILT TO LAST.

DURABLE & LOW MAINTENANCE

Composite decking resists fading, staining, scratching, and mold. Enjoy more time outside and less time maintaining.

BUILT FOR INDIANA WEATHER

Engineered to handle harsh sun, heavy rain, snow, and freeze/thaw cycles without warping or rotting.

STYLISH OPTIONS

A wide range of colors and textures to match your home and lifestyle.

BETTER FOR THE ENVIRONMENT

Made from recycled materials and built to last.

WHY HOMEOWNERS CHOOSE COMPOSITE DECKS

LONG-LASTING INVESTMENT

Built to last 25–50 years with minimal upkeep.

NO PAINTING NO STAINING

Say goodbye to sanding, sealing, and staining.

FADE & STAIN RESISTANT

Advanced protection keeps your deck looking beautiful year after year.

SAFER SURFACE

Slip-resistant, splinter-free surface—perfect for barefoot living.

INCREASES HOME VALUE

Adds beauty, function, and value to your home.

STAMPED CONCRETE vs. COMPOSITE DECKS

FEATURE	STAMPED CONCRETE	COMPOSITE DECKS
COST TO INSTALL	✓✓✓ More Affordable	✓ Higher Investment
LONG-TERM VALUE	✓✓✓ Excellent ROI	✓✓ Good Value
MAINTENANCE	✓✓ Easy to Clean	✓✓✓ Very Low Maintenance
DESIGN OPTIONS	✓✓✓ Unlimited Colors & Patterns	✓✓ Limited Colors & Styles
GROUND-LEVEL SPACES	✓✓✓ Perfect Solution	✓ Requires Elevated Structure
WEATHER DURABILITY	✓✓✓ Handles Freeze/Thaw	✓✓ Resists Moisture & Rot
LIFESPAN	✓✓✓ Built to Last Decades	✓✓ 20–30 Years

TWO GREAT OPTIONS. CHOOSE WHAT'S RIGHT FOR YOU.

Composite decks are ideal for elevated spaces, while stamped concrete is the smart choice for ground-level patios—delivering stunning looks, long-lasting durability, and better value.

**GROUND-LEVEL PATIOS
OFTEN COST LESS WITH
STAMPED CONCRETE.**

**WE'LL PROVIDE PRICING
FOR BOTH OPTIONS**
so you can make the best decision for your home and your budget.

POPULAR DECK OPTIONS

MODERN COMPOSITE DECKS

Clean lines. Low maintenance. Built for today's homes.

CLASSIC WOOD LOOKS

The warmth of wood with the benefits of composite.

MULTI-LEVEL & TRANSITIONS

Seamless elevation changes for any outdoor space.

PERFECT FOR ANY HOME

PAVER PATIOS & DECKS

Create the perfect place for gatherings with custom patios designed for comfort, style, and everyday living.

SEATING & ENTERTAINING AREAS

From fire features to seating walls, we build spaces that bring people together and make every occasion special.

PAVERS vs. STAMPED CONCRETE

Two great options. Stamped concrete is the **smarter value.**

FEATURE	PAVERS	STAMPED CONCRETE
INSTALLED COST	\$\$\$ Higher investment	\$\$ More Affordable
DURABILITY	Good Joints can shift	Excellent One solid surface
MAINTENANCE	High Weeds & joint sand	Low Easy to clean
APPEARANCE	Individual pieces More lines	Seamless Finish Clean, beautiful look
WEATHER RESISTANCE	Joints vulnerable to freeze/thaw	Built for Indiana Handles freeze/thaw
LONG-TERM VALUE	Good Higher upkeep	Excellent Lasts for decades

THE SMARTER CHOICE

Stamped concrete delivers the look you love for **less**—built to last for decades.

COMPARE BOTH. SAVE MORE.

We'll provide pricing for pavers and stamped concrete so you can choose what's best for you.
